BRAND GUIDLINE

ODS Global net

LOGO VARIATION

Primary logo

Your primary logo is aligned horizontally and is best for almost every were it is needed. Fits well in website headers, navigation bars, email signatures, letterheads, and app interfaces where horizontal space is more common than vertical. Horizontal alignment o□en feels cleaner and more corporate than stacked or vertical logos.

ODS
Global net

Secondary logo

Your secondary logo is designed in a horizontal orientation, creating a streamlined and balanced composition that maximizes readability across wider layouts. It works particularly well for website navigation bars, email signatures, letterheads, presentations, business cards, and digital banners, where horizontal space is more readily available and the full brand name can be clearly displayed.

Logo Mark

The logo mark is the standalone visual symbol of ODS Global Net, designed to communicate the brand’s identity through a simple and recognizable form. It can be used independently of the full logo across social media profiles, app interfaces, digital platforms, merchandise, signage, and other applications where a compact brand representation is required.

Favicon

The favicon is a simplified version of the ODS Global Net logo mark, optimized for very small digital spaces. It provides quick brand recognition when displayed in browser tabs, bookmarks, website shortcuts, and other digital touchpoints where the full logo cannot be clearly presented.

COLOR STANDARDS

Deep Navy

HEX: #0F285B
RGB: 15 / 40 / 91

So Silver

HEX: #E8E8E8
RGB: 232 / 232 / 232
CMYK: 0 / 0 / 0 / 9

Gold gradient formation

The gold gradient is carefully cra□ed as a signature visual element of the ODS Global Net logos, giving the identity a premium, elegant, and sophisticated appearance. It transitions smoothly from a light, radiant gold to a deeper, richer gold, creating depth and visual dimension within the logo.

The lighter gold represents brightness, positivity, and accessibility, while the deeper gold communicates strength, trust, quality, and stability. Together, the tones create a distinctive gradient that enhances the logo's presence while maintaining a timeless and professional brand character.

Overall feeling: Premium • Elegant • Trusted • Sophisticated • Timeless

CLEAR SPACE

The ODS Global Net logo must always have sufficient clear space around it to preserve its visibility, legibility, and visual impact. Clear space is the empty area surrounding the logo that protects it from visual clutter and prevents other elements from interfering with its recognition.

As a general guideline, maintain at least 30 px of clear space or one-fourth (¼) of the logo's height on all sides. This ensures that the logo remains clean, balanced, recognizable, and professional across both digital and print applications.

LOGO MISUSE

Do not alter the opacity of the logo

Do not stretch the logo

Do not change the colours of the logo

Do not crop the logo

Do not drop shadow in the logo

Do not use the outline verstion of the logo

Do not rearrange the components of the logo

Do not rotate the logo from its upright to any other

Do not add aoutlines to the logo

TYPEFACE

Google Sans

The selected typeface is a modern, web-safe sans-serif font chosen for its versatility, readability, and professional appearance. Its clean and balanced letterforms allow it to perform consistently across a wide range of applications, from website interfaces and mobile applications to business cards, presentations, social media, and printed materials.
